SUBJECT: Statement regarding Novel coronavirus (2019-nCoV)

Dear Valued Customer,

We would like to inform and reassure you that we have been closely monitoring and continue to monitor the epidemic of Coronavirus (2019-nCoV or Covid-19) and its potential consequences.

First and foremost, we initiated appropriate actions including activating / updating our plants' H1N1 existing contingency plans to ensure the safety and wellness of our employees.

Our Purchasing department has been actively working on assessing the potential impact on our supply chain. Thanks to Seqens' unique positioning on intermediates including back-integration capabilities, we have been able to mitigate the situation.

Thus, as of the date of this statement, there are only very few delays identified (about 1 month) and, among the 300+ products the CDMO business unit sells on the market, only 9 products are potentially impacted. If this may affect your company, your Seqens account manager will inform you shortly.

We will continue to closely monitor the coronavirus situation and work to prevent and mitigate any supply disruptions.

Sincerely,

Frederic Desdouits
CDMO General Manager
