

AdvensCare DC

BIOBASED MULTIFUNCTIONAL INTERMEDIATE

| | |
|-----------------------------|---|
| Synonyms/Trade names | Decanoyl chloride; Capric chloride |
| CAS Number | 112-13-0 |
| Packaging | 30kg, 60kg and 200kg net metal drums with plastic liner |

AdvensCare DC properties:

- Colorless clear liquid
- Bio-sourced
- Soluble in oils, insoluble in water

AdvensCare DC is a colorless liquid used as an intermediate for the synthesis of cosmetics ingredients including but not limited to emollients, solvents, masking agents, solubilisers as well as skin conditioning agents such as caprylic/capric triglycerides.

Caprylic/capric triglyceride can be produced synthetically via Fischer type esterification methods promoted by the use of an acid chloride such as **AdvensCare DC**.

Caprylic/capric triglyceride is a versatile ingredient which finds its primary uses as emolient, dispersing and thickening agent in skin care and make-up products.

Safe Use and Handling: For specific safe use and handling information, or to obtain the AdvensCare DC Safety Data Sheet, contact your local SEQENS Advanced Specialties representative.

Shelf Life: Shelf life of AdvensCare DC is 6 months, when product is stored in the conditions recommended in the MSDS. After this period, the product can be retested for shelf life extension if needed.
