

AdvensCare MBC

WHITENING ACTIVE AND FRAGRANCE INTERMEDIATE

Synonyms/Trade names 2-Methylbutanoyl chloride

CAS Number 57526-28-0

Packaging 60L or 200L drums

AdvensCare MBC properties:

- Light yellow clear liquid
- Only source of AdvensCare MBC in Europe
- Soluble in oils, instable in water

AdvensCare MBC is a light yellow clear liquid used for the synthesis of perfuming agents, more specifically esters.

These esters have different olfactory profiles ranging from passion fruit to wood-like.

These ingredients can be employed alone or incorporated as fragrance or flavor ingredients to modify or enhance already existing fragrance compositions.

AdvensCare MBC is also used for the synthesis of whitening agents such as cyclic diamines or cyclic diols.

Safe Use and Handling: For specific safe use and handling information, or to obtain AdvensCare MBC Safety Data Sheet, contact your local SEQENS Advanced Specialties representative.

Shelf Life: The shelf life of AdvensCare MBC is 6 months, when product is stored in the conditions recommended in the MSDS. After this period, the product can be retested for shelf life extension if needed.
