

AdvensCare PPA

FRAGRANCE INTERMEDIATE

Synonyms/Trade names 3-phenylpropionic acid ; Dihydrocinnamic acid

CAS Number 501-52-0

Packaging

- 10 kg in PE 12L drum
- 50 kg in 60L plastic drum
- 100 kg in 120L plastic drum
- 180 kg in 220L plastic drum

AdvensCare PPA properties:

- White crystalline powder
- Soluble in water and alcohols
- Listed in IFRA transparency list

AdvensCare PPA is a white crystalline carboxylic acid with a sweet floral scent.

AdvensCare PPA is widely used for flavoring, food additives, spices, fragrances, and personal care as it acts as a fixative agent, or a preservative.

It is especially used as an intermediate for the synthesis of AdvensCare PPA esters such as:

- Ethyl-3-propionate: hyacinth, rose, honey, fruity, nuts
- Methyl-3-propioate: floral, balsamic, honey, nuts

These esters are used at low levels in floral and oriental type-fragrances.

Safe Use and Handling: For specific safe use and handling information, or to obtain the AdvensCare PPA Safety Data Sheet, contact your local SEQENS Advanced Specialties representative.

Shelf Life: Shelf life of AdvensCare PPA is 24 months, when product is stored in the conditions recommended in the MSDS. After this period, the product can be retested for shelf life extension if needed.
