SKALA Chemicals

Talan's Mission for SMEs

Talan delivers *SKALA Chemicals*, an acceleration solution for SMEs enabling quick, simplified, and cost-effective implementation of S/4HANA Cloud Public Edition (GROW with SAP).

SKALA for Chemical Manufacturers

SKALA is tailored for Chemical manufacturers to manage regulatory compliance, raw material variability, and production efficiency with tight integration. It enhances operational adaptability, optimizes supply chains, and drives profitability in a highly regulated and dynamic market.

Key Benefits for Chemical Manufacturers

SKALA enhances your ability to maintain compliance and optimize production processes using advanced analytics and real-time insights. It integrates regulatory management and provides automated reporting to ensure:

- Compliance with industry regulations and full traceability across operations.
- Optimized production schedules and reduced operational inefficiencies.
- Enhanced visibility and agility in response to regulatory changes and market demands.

Can you relate to these key challenges?

OPERATIONS

Challenges in Achieving Regulatory Compliance and Efficient Supply Chain Management

- Complex regulatory landscape leading to potential non-compliance, fines, and operational risks.
- Inefficient supply chain and production systems impacting timely delivery and cost control.
- Struggles to ensure consistent production efficiency while managing raw material variability.
- Limited real-time visibility affecting agile and informed decision-making.

FINANCE

Pressure to Maintain Financial Health and Compliance in a Highly Regulated Industry

- Limited visibility into financial operations across different business units and production sites.
- Challenges in managing financial risk and optimizing costs while maintaining profitability.
- Inconsistent capital allocation and investment planning affecting sustainable growth.
- Difficulties in ensuring accurate and timely financial reporting.
- Insufficient compliance with evolving regulatory requirements and industry standards.

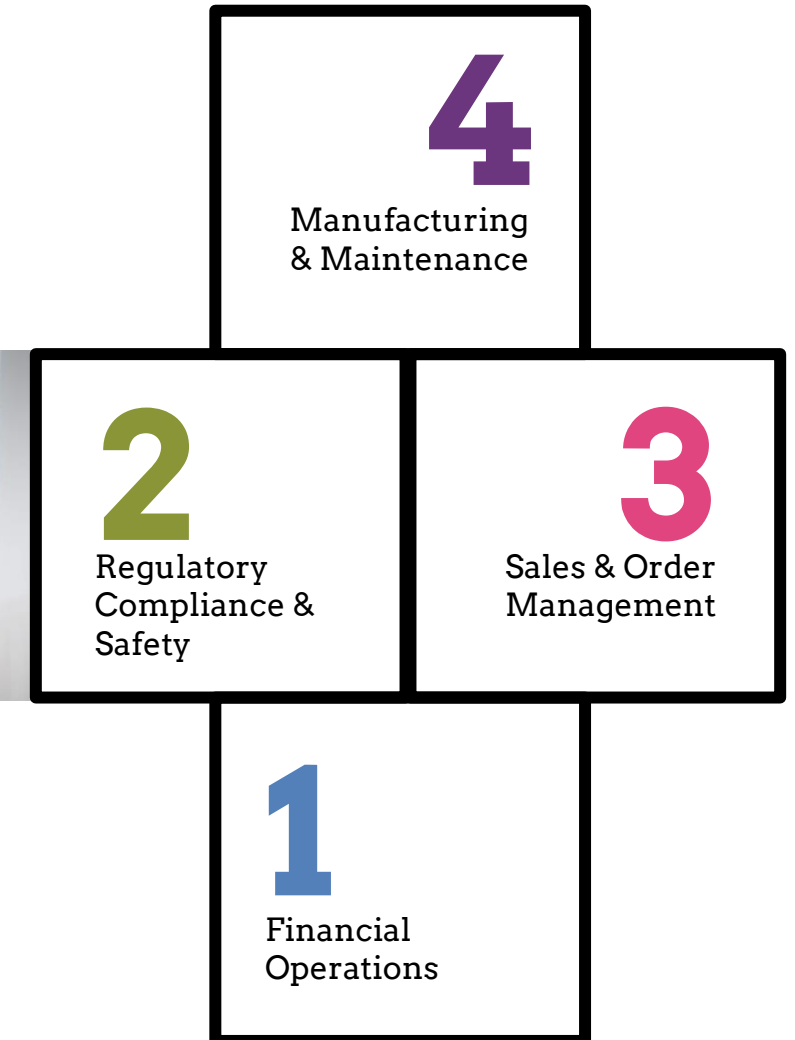

IT

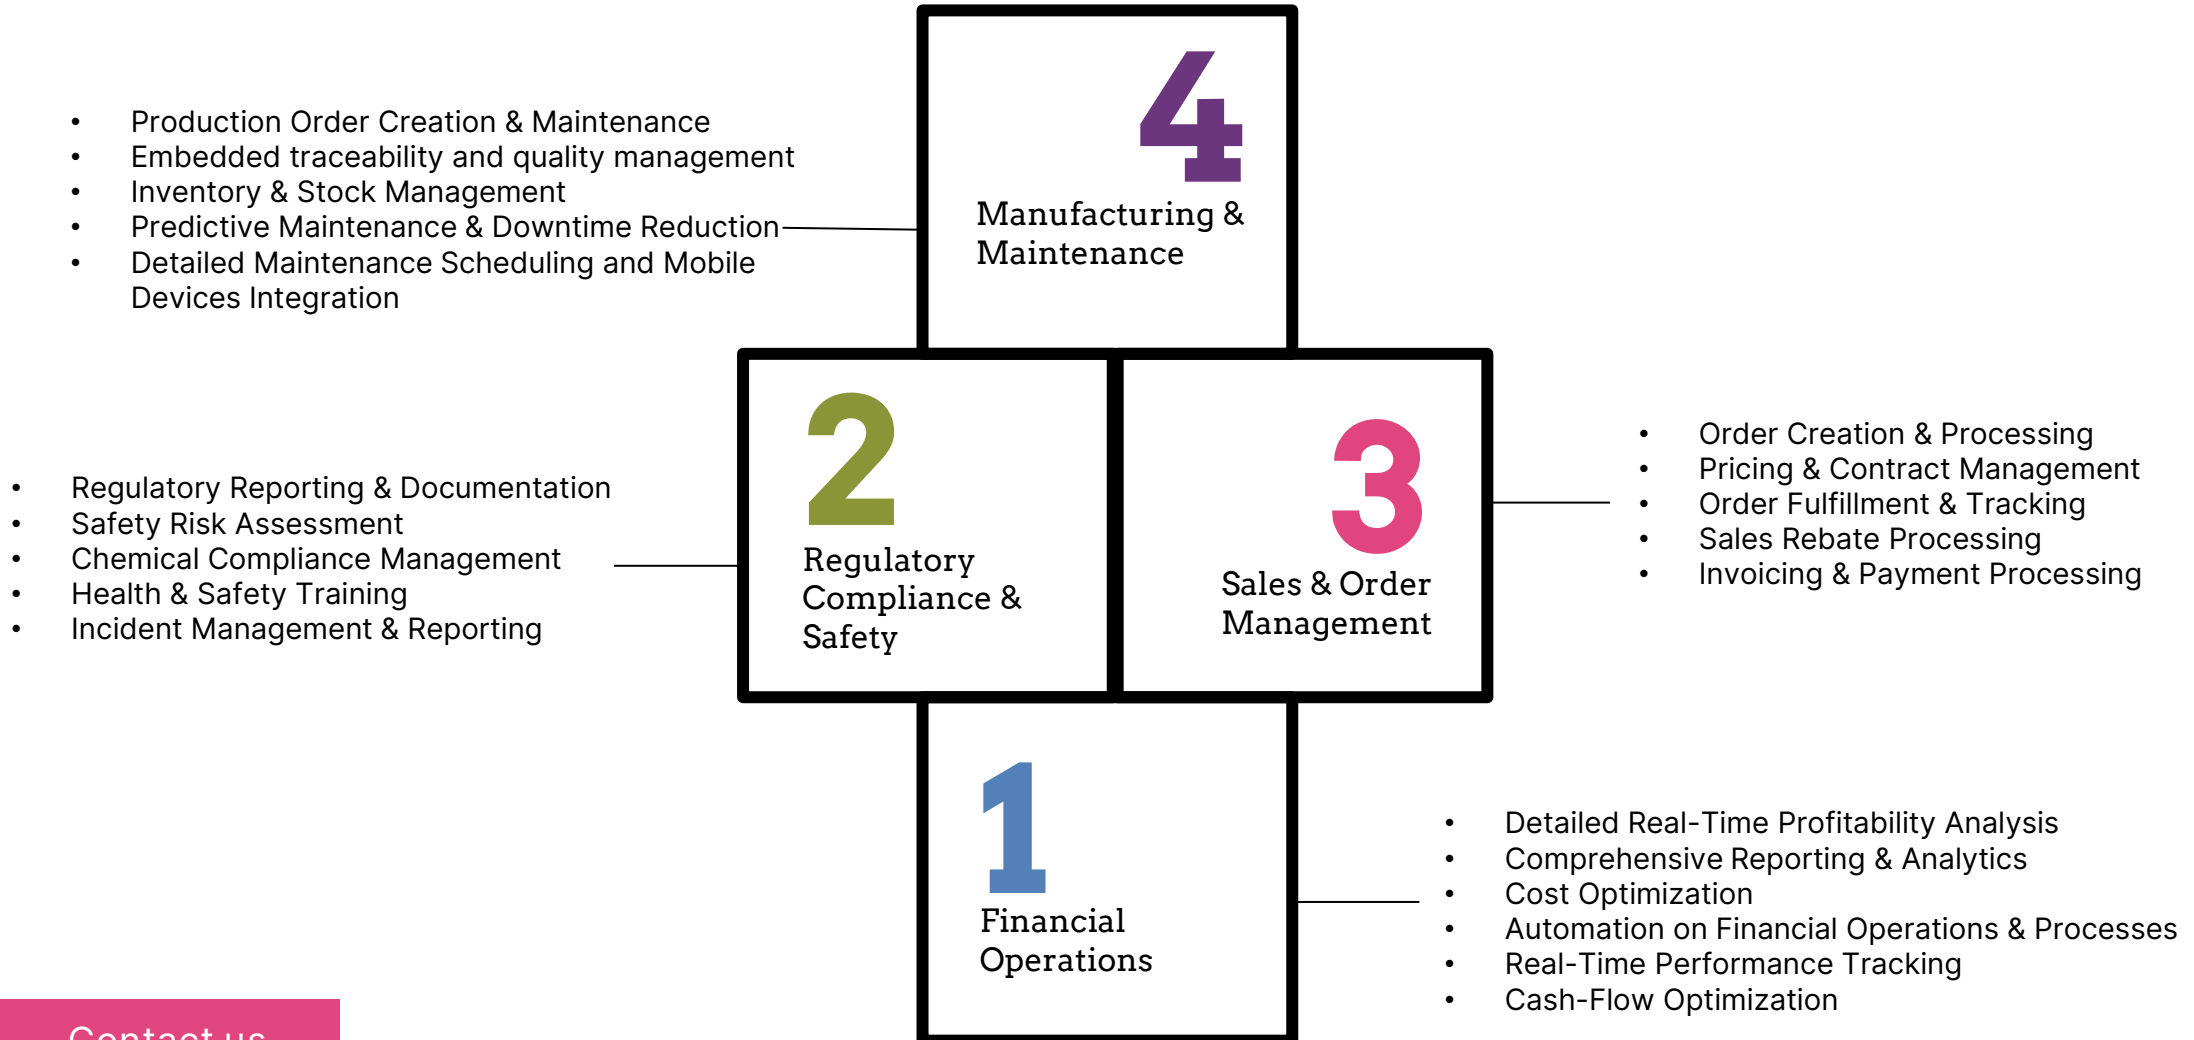

Need for Secure, Scalable Systems to Adapt to Evolving Business Requirements

- Legacy systems are inadequate for supporting the scalability and flexibility needed to stay competitive.
- Poor connectivity and integration between disparate tools, data, and departments.
- High system costs coupled with limited data security and vulnerability to breaches.
- Time-consuming and repetitive manual processes impeding innovation and strategic initiatives.

Progressing Step-by-Step with a Secure & Scalable Cloud Solution

Solution Summary

Contact us

Key Benefits for Chemical Manufacturers

Optimized Production and Reduced Operational Costs

- Automated production and maintenance workflows reduce downtime and inefficiencies.
- Real-time insights into production processes optimize resource allocation and output.
- Predictive maintenance minimizes unexpected equipment failures and associated costs.

Enhanced Supply Chain Resilience

- Comprehensive end-to-end visibility improves supply chain agility.
- Real-time dashboards and KPIs tracking enables proactive decision-making to mitigate disruptions and maintain operational stability.
- Demand-driven planning and streamlined logistics enhance operational efficiency.

Higher Profitability through Efficient Operations

- Data-driven analytics optimize production schedules and material usage.
- Real-time performance tracking and predictive analytics enhance operational efficiency.
- Integrated financial management aligns resource allocation with business goals.

Improved Compliance and Traceability

- Advanced traceability features ensure compliance with industry regulations.
- Real-time compliance management maintains high safety and environmental standards.
- Automated compliance checks, streamline documentation and audit readiness

Scalable and Agile Operations

- Scalable operations to accommodate business growth without significant reconfiguration.
- Real-time analytics support informed decision-making and strategic planning.
- Agile processes enable quick adaptation to regulatory changes and market demands.

Packages

Talan has packaged the implementation experience to provide tailored, expected and proven results.

Our solution includes:

- SAP S/4HANA Cloud, a ready-to-run cloud ERP solution with integrated business processes.
- Chemical industry's best practices.
- SAP's proven acceleration services and implementation methodology.
- Built-in intelligent technologies, including Joule's AI, machine learning, real-time data processing, enhanced reporting and analytics.

Our Methodology

Progressing step-by-step to reach full business potential.

6 Run

Support, training and updates for stabilization.

5 Deploy

Training, migration and go-live.

4 Realize

Configuration, testing and personalization.

3 Explore

Define futur processes for optimization.

2 Prepare

Prepare Cloud environment and project plan.

1 Discover & Trial

Experience S/4HANA Cloud for better adoption.

Positive innovation

Talan is a trusted partner with 30 years of innovative thinking and expertise in digital transformation in the mid-market sector. Our mission is to empower SMEs by enabling them to harness the power of cutting edge ERP technologies while streamlining their operations for sustainable expansion.

They trust Talan:
