

**+10 Years**  
Partnership

**MULTI-COUNTRY  
MULTI-SITE**  
SAP Transformational Program

**US\$ +10M BUDGET**  
SAP Transformational Program  
over the last 3 years

## Pain Points

- Legacy Systems: Lack of Integration, Interoperability Issues & High Maintenance Costs
- Real-Time Data and Reporting Deficiencies
- Compliance and Regulatory Challenges
- Need for Better Plant Asset Management

## Solution

- ECC conversion to S/4HANA and migration to the Cloud
- Implementation of maintenance management (PM), procurement management (P2P) and Document Management System (DMS) with a phased approach across several sites worldwide.
- FI-CO: Introduction of Fiori for finance and sales

## Benefits

- **Operational Efficiency:** Streamlined processes across plants' operations.
- Improved vendor management and strategic sourcing leading to **cost savings**.
- Enhanced capabilities **ensuring compliance** with safety and environmental regulations.
- **Decision Making:** Improved data accuracy and availability.
